

The path of LEOCH INTERNATIONAL TECHNOLOGY LIMITED (SBTi)

"The era of global warming is over and the era of global boiling has arrived." United Nations Secretary-General Antonio Guterres has issued a new warning about global warming, using a new term: "The era of boiling water." At present, the climate issue has become a serious problem faced by the whole world, and it is urgent to take actions to reduce carbon emissions.

The SBTi is a global initiative jointly launched by the Centre for Global Environmental Information Research (CDP), the World Resources Institute (WRI), the United Nations Global Compact (UNGC) and the World Wide Fund for Nature (WWF) to define and promote science-based carbon reduction target setting. Since its launch in 2015, 6,561 companies worldwide have joined the SBTi, of which 3,898 have had their carbon targets formally ratified and 2,590 have committed to setting net zero targets in the future.

The subsidiaries of LEOCH INTERNATIONAL TECHNOLOGY LIMITED- Anhui Leoch Power Supply Corp 、 Leoch Battery (Jiangsu) Corp. 、 Zhaoqing Leoch Battery Technology Co., Ltd. 、 Anhui Leoch New Energy Co., Ltd. etc. having announced its commitment to join the SBTi (Science Based Targets initiative) July 2023, it has now completed its science carbon target setting and submitted to the SBTi for validation. With

2022 as the base year, achieve greenhouse gas reduction targets consistent with the 1.5°C temperature rise limit path by 2030. To advance the Paris Agreement's goal of "limiting global warming to well below 2°C above pre-industrial levels and pursuing efforts to limit warming to 1.5°C." This also means that LEOCH INTERNATIONAL TECHNOLOGY LIMITED will further integrate with the global low-carbon emission reduction mechanism, make efforts to prevent global climate deterioration, and contribute to promoting the green and sustainable development of the global economy.
